

**OCTOBER 20, 21, and 22.**

# A. R. GLASCOCK & CO.

If chosen as the Democratic nominee for Commonwealth's Attorney, we confidently predict his election; and during his term of office a rigid prosecution of criminals and a dignified maintenance of law and order.

On the second row were Bishops Bradley, of Manchester; N. H., and Carberry, of Hamilton, Ont. The remaining members of the delegation consisted of Messrs. J. E. Sullivan, of Boston; Wm. A. McGuire, of New York; John L. Sweeney, of Newark; James G. Setton, of Jersey City, and Corcoran, Philadelphia; Drs. Downey, Hogan, Gabriel Byrne, Gleason and Carrigan.

At the signal from the Rev. Dr. McDonald, chief master of ceremonies, the priest led the number of 400 entered the sanctuary. Before awaiting another signal, Father John J. Riordan and John J. Keon commenced chanting the "Gloria," for the deacon, Reginald Cui Ounila, "vint," the response being sung by Father Seane and Father McGee's choir. The dead cardinal lay along his bier. His hands were crossed over

## THE LABORERS' UNION.

ONE THOUSAND MARCH TO MEMORIAL AND STOP A RAT WORKS.

Mills That Run Against the Ten-Hour Labor Law—Importing Men from Chicago on Barges—"Rate" Speeded Away—Joining the Union.

MARINETTE, Wis., Oct. 16.—A large force of the laborers' union of this place, estimated to be nearly one thousand strong, marched in a solid body across the river to Menominee and surrounded one of the Kirby-Carpenter company's boarding houses before the men had gone to breakfast, not allowing a man to go to work.

The act in the outcome of a meeting held here by the members of the union in which it was stated that the Kirby-Carpenter company was employing non-union men in their mills, and had refused to sign the contract, which the mill companies had done, allowing their men eleven hours a day's work, with one hour for dinner, the balance of the season.

The union claim that S. M. Stephenson, the manager and partner in the union, was quickly importing men in their barges from Chicago to work at the old standard time as before the last lock-out, waving all claims and rights to themselves and to the ten-hour law of Michigan as now in force; that the mill had the complement of men and could be run in full force from this on.

Up to this hour no settlement has been made or arrangement in which the mills will again start up. It is said that a force of Chicago police will be here soon. Also that the militia will be called on, as the union is now determined that no man shall go to work, while the manager, S. M. Stephenson, is determined that his mills will be run, and on the old system.

Men landed in Menominee from one of the company's barges who had been hired in Chicago to go to work. They were immediately taken in charge by the strikers and run over to Marinette in wagons, where they signed their names and joined the union.

MAN AND WIFE SHOT IN BED.

A Mysterious Case Near Rochester—The Assailant Thought to Be a Woman.

ROCHESTER, N. Y., Oct. 15.—News has just reached this city of the attempted murder of a man and wife at Geneva, a village near the city. Mr. and Mrs. Henry Smith, a young married couple, reside in the suburbs of the town. They retired as usual Saturday night, sleeping in a room on the ground floor near a window. Mrs. Smith was awakened by a deafening report, and found the blood streaming from a terrible wound in her breast. Before she could arouse her husband, who was still asleep, two more shots were fired, one striking her husband and the other herself. The charges were heavy bullets. The husband was wounded in the hip and leg. A servant who slept in the upper part of the house gave the alarm to the neighbors. It is believed that the affair grew out of jealousy and that a woman living in the neighborhood was the assailant.

The wounds are quite serious, and may result fatally. No reason for the attack can be learned. Smith and his wife are estimable people, and have lived happily since their marriage, and have a great many friends. Post-prints, evidently made by a woman, were found in the vicinity. The board of supervisors of Geneva offered a reward of \$1,000 for the apprehension and conviction of the assailant. The district attorney went to the scene to make a diagram of the house and surroundings. Smith is but twenty years old and his wife nineteen.

ANOTHER FANATIC.

Francis Henry Otto Claims to Have Solved the Perpetual Problem.

BURLINGTON, Wis., Oct. 15.—Francis Henry Otto, living three miles northeast of this place, better known as Perpetual Henry, claims that he has solved the problem of perpetual motion. He says that he has applied for a patent, and that he expects to be able to show its merits to the public by January 1. He claims for his invention all that is possible for steam or water power to accomplish, and says it can be used by a stationary or locomotive engine, can be started or reversed by means of a lever and brought to a standstill by means of a hand brake.

His device consists of a wheel within a wheel, and it can be operated and placed in position by any person of ordinary mechanical ability. He started his laborious task of solving the great problem he says, at his native place, Bloomington, O., twenty-nine years ago. One of his machines is at present being constructed in a machine shop.

A Wonderful New Clock.

REDFORD, Pa., Oct. 15.—In the little town of Woodbury, this county, resides a young man of mechanical genius who is working at a wonderful clock, which when completed will probably eclipse anything yet produced in the clock line, not even excepting the celebrated Strassburg clock. He has been working at this clock over five years and expects to finish it next spring. It will be twelve feet high by five feet wide and three and one-half feet deep, and will be entirely of walnut wood. It is artistically designed and displays graceful proportions, while the moldings ornamenting it are delicately carved. On the lower front of the case is a circle of eleven dials, with a large dial in the center giving the time in Washington D. C., in hours, minutes and seconds, the month of the year, the date of the month, the day of the week, the four seasons of the year and the changes of the moon. The eleven remaining dials give the difference of time in New York, Chicago, San Francisco, London, Pekin, Constantinople, Melbourne, Vienna, Cairo and St. Petersburg. One of the most curious features of the contrivance by which at a certain hour of the day a figure representing William H. Vanderbilt, the railroad king, arises from his chair, holding a cigar in his right hand, and all the other great railroad magnates of the country slowly enter a door at his left, pass, bow to him and disappear in a subterranean way at a door to his right.

## NO POISON IN THE PASTRY

ARE USED.  
Vanilla, Lemon, Orange, etc., flavor other Creams, Poundings, etc., and are delicately and naturally so from which they are made.

FOR WEAKNESS, LACK OF ENERGY, AND ALL THE SYMPTOMS OF NERVOUS DEBILITY.

It is a fact that the human system is constantly being worn down by the action of the various organs, and the result is a general debility, which is the cause of all the diseases of the human system.

Dr. J. C. BROWN, a leading physician of New York City, has discovered a new and powerful method of treating all the diseases of the human system, and the result is a general debility, which is the cause of all the diseases of the human system.
